

Here comes some updated information for Erasmus exchange with the Department of Mathematics, Stockholm university:

1) **Contact:** It is now *Anu Kokkarinen* who is taking care of all *student* related questions, as well as the direct contact with your students. She can be contacted via erasmus@math.su.se
I will continue with questions related to *contracts*, only. However, in the next months I cannot guarantee quick answers, as I am soon going to be on leave of absence :-)

2) **Courses:** Please find the updated list of courses in English at our department here: <http://www.math.su.se/english/education/courses/courses-and-schedules>

3) **Nominations:** If you have not done yet, please nominate your students no later than *May 1*, but we are happy to receive your nominations earlier (please send them to the address: erasmus@math.su.se).
Anu will then inform the nominated students about further application routines.

Best greetings from Stockholm,
Annemarie
